

## Mission Statement

Eden FM Community Radio's mission is to foster a vibrant and inclusive community by providing a platform for diverse voices, promoting local talent, and delivering engaging, informative, and entertaining content that reflects the values and interests of the community we serve.

The corner stone of Eden FM Community Radio is our ethos “Radio for the community by the community”. The programmes broadcast on Eden FM Community Radio will be at all times

- Of a high general standard in presentation and production
- Of high-quality audio for clear transmission
- Are based on community events and happenings that are of interest to the community as a whole.
- Reflect the special interests and the needs that exists in the community area serviced by Eden FM Community Radio
- Add to the diversity of programming already in existence in our Transmission Service Area. This diversity would be different to the output of stations that already cover the Edenderry area such as RTE, Today FM, Newstalk, iRadio, Spirit Radio and Midlands Radio.
- Ensure that minority groups have the same access to the airwaves as bigger groups and organisations.
